Kanpur, Uttar Pradesh

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Opps concepts
- Web Development
- Database Management
- Oprating System

Projects

Delta Project | [delta-project](#)

Nov 2023 - Feb 2024

Technologies Used: MongoDB, HTML, CSS, Javascript , AI , Nodejs

- an online marketplace that connects people who want to rent out their homes with people looking for accommodations in specific locales.
- Launched an AI chatbot solution that processes customer queries for budget-friendly accommodations, resulting in a reduction in support tickets and improving overall customer engagement metrics across digital platforms..
- Navigation:Designed and implemented an advanced navigation system utilizing a Map API that improved route accuracy leading to enhanced user experience and increased customer satisfaction ratings within three months.
- Introduced a multi-factor authentication process for user verification that limited access to listing updates; this initiative increased security protocols and reduced potential fraudulent activity within the first quarter.

Your Diary | [Github-Repo](#) **Technologies Used:** HTML, CSS, Javascript

March 2024 - May 2024

- Developed and tested a usr-friendly interface that made task management intuitive; the tool is now using by us, demonstrating substantial improvements in daily task tracking .
- Intelligent Reminder System for Enhanced Productivity: "Your Diary" that not only allows users to set reminders for upcoming tasks but also sends notifications after task deadlines.

WeatherLiveReport [Website Link](#)

Aug 2023 - Sept 2023

- * Produced and implemented a responsive interface using Map API and CSS, enhancing user experience and increasing website traffic after launch through optimized navigation.
- * Developed a webpage displaying location-based weather using HTML, CSS, and JavaScript, integrating map and weather data for a user-friendly experience.

Technical Skills

Languages: Java, C, HTML/CSS, JavaScript, MySQL

Developer Tools: VS Code, Github, npm , bootstrap, Reactjs, Nodejs

Technologies/Frameworks: Expressjs, GitHub

Coding Plateforms

* **Leetcode:** Solve 300+ * **CodeChef:**solve 200+

Certification

Full-stack developer

Leadership / Extracurricular

College Basketball Team:

Shooting guard (SG) A key scorer who's known for their long-range shooting and dribbling skills.
